

Cut out, decorate and make a Coronation Crown!

1. Print out **two** copies for each crown. Use thick paper or stick print-outs onto thin card.

2. Join with tape to create a long strip.

3. Cut out the crown outline - **adult help needed.**

4. On one side of your crown, keep this centre piece, for the back cut off where the line is dotted.

5. Get children to decorate with pens, paint, sequins, gems, whatever you've got to hand.

7. Join the four strips in the middle to create cross, see photo.

6. Join the strip together to create a circle, adjust to fit children's heads.
